

Western Galilee, Israel | Budapest, Hungary

THE PARTNERSHIP DISCOVERY PROGRAM -FOR LIFETIME LEARNERS-

Oct. 27 - Nov. 4, 2019

~Not including travel time. Be in the Western Galilee from October 27 - November 1, then in Budapest, Hungary from November 1-4, 2019~

The Partnership Discovery Program provides an opportunity for “young” retirees to experience our Partnership2Gether Western Galilee Region (*and additionally Budapest, Hungary*) with in-depth, thought-provoking lectures and field trips with local experts in the areas of Security, Multiculturalism, Arts, Sustainability & Tolerance. Participants will be encouraged to share dialogue on these topics with each other and the facilitators. Programs will be of interest to new and returning visitors to our region.

This trip is very unique, it will give the participants the opportunity to know more about everyday life in our region, talk to them face-to-face in their living rooms and places of work. The visit will give you an opportunity to gain a better and deeper understanding of life in the region, and acquire personal relationships with our volunteers and other people of the Western Galilee.
