

Instructions for How to Watch *The Keeper*, *Crescendo*, and *Those Who Remained* on your TV.

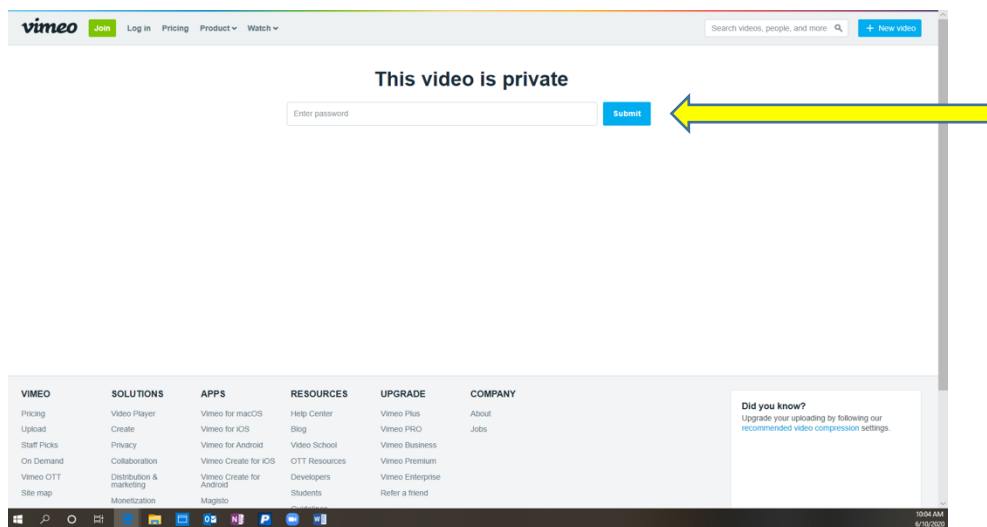

## Step 1: Make sure you have a Vimeo On Demand Account

If you have already watched a film through Vimeo On Demand, and are logged into your Vimeo OnDemand Account, go to Step 2. A Vimeo On Demand account will allow you to watch these films through your Roku, Chromecast, AirPlay/Apple TV device. To make a free Vimeo account, please create one here:

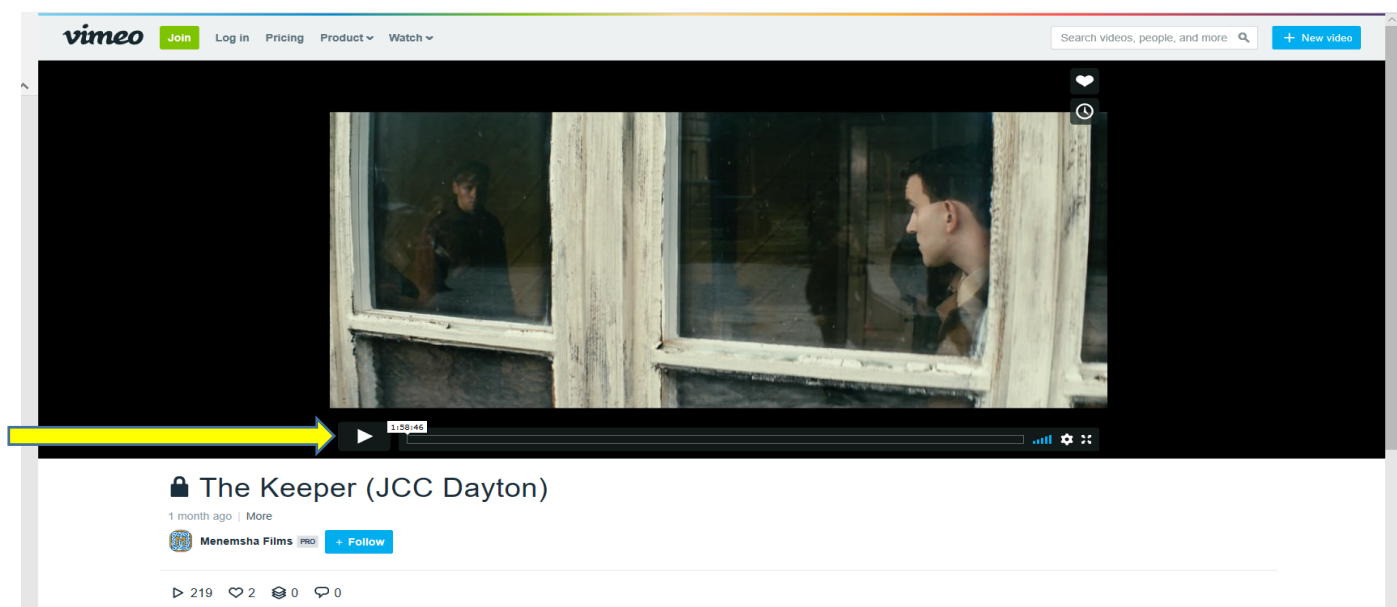

[https://vimeo.com/join?ssl=0&iframe=0&popup=0&player=0&product\\_id=0&activate=0](https://vimeo.com/join?ssl=0&iframe=0&popup=0&player=0&product_id=0&activate=0)

## Step 2: Click the film link included in your email

When you get your film link email, open the film link on your computer. You will be taken to a Vimeo video page. Here, you will input the special Video password included in your film link email.

The movie will then begin on your computer. If you wish to watch the movie through the Vimeo OnDemand App through Roku, AirPlay/AppleTV, Chromecast or SmartTV, pause the movie.

Then, click the clock button at the top of the movie screen. This will add the film to your Vimeo On Demand account.

At this point you can turn on your TV to open or download the Vimeo app as you normally would. The film will be located in your “My Library” tab. From there, you can choose to watch it at any point during the film’s availability window.
