

Joyce Graham

I have been working in Early Childhood Education (Infant through pre-K) for the past 38 years, and I have been working here at the JCC since the fall of 2007. I find it very rewarding, and at times challenging, to work with young children but it has been a blessing to watch so many grow from being infants to confident preschoolers.

John, my husband, is a research engineer at the University of Dayton Research Institute. We have three wonderful children: Patrick, Erin, and Kelly.
