

Shabbat Nerot, Week of October 11th - 15th, 2021

Theme: Sensory Fun with squishy things

early
childhood
care & education

Dear Parents,

This week we will be exploring all different types of textures especially squishy textures.

Sensory development is very important in your child's brain development. I challenge you to

look around your home and see how many textures you can have your child explore and touch. This can be a fun bonding experience for the both of you. It does not only have to be squishy, but it can be warm/cold, hard/soft, bumpy/smooth etc. The possibilities are endless! We will also be eating and trying foods that have different textures.
