Notes from Ms. Sara:

Gracie has loved investigating the worms on the blacktop so much that she wrote a grant to purchase a vintage AIRSTREAM trailer to travel to the National Parks and other habitats around the world to work as a junior bunny ranger following her graduation from school!! She is so excited about her upcoming adventures especially visiting the woods and streams and the mountains (her favorite just like her mommy 😊) but is still somewhat unsure about the prospect of surveying the waters off the coast of Maine in a small fishing dingy-even if she is accompanied by her trusty canine companion. In addition to collecting all the scientific equipment she will need to conduct her research; she is going to look through several vintage Betty Crocker cookbooks to determine which foods are best to cook over the range in the trailer and on a campfire since of course the humans who are assisting Gracie and her colleagues must eat something different than paper. Silly humans!! Don't they know paper is the best source of nutrition!! STAY TUNED FOR OUR REPORT!!
