**Books:** *The Thingity Jig, Blue and Bertie, Chickens Can't See in the Dark, Ziggy and the Moonlight Show, I'll Love You Till the Cows Come home*

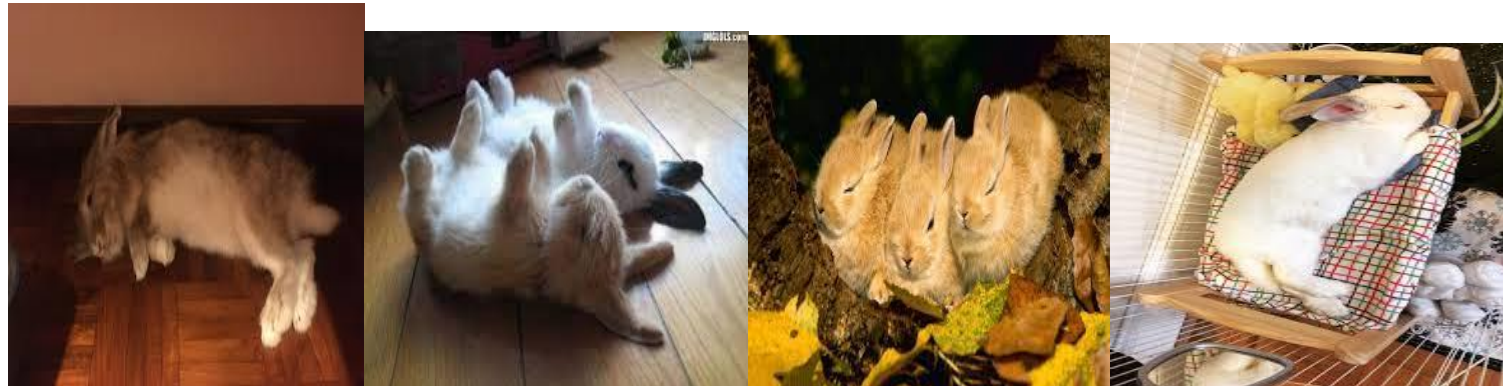

early  
childhood  
care & education

**Concepts:**

Scientific concepts- light, day, night, diurnal, nocturnal, translucent, moon, sky, astronomy, astrophysics, clouds  
21st century concepts-cooperation, colleagues, community, cordiality

**Music:** "Immigrant", "Kashmir", "Whole lotta love," "Ramble on", music from the Peer Gynt Suite by Edvard Grieg

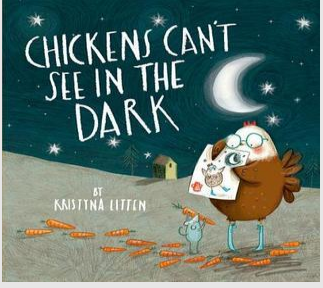

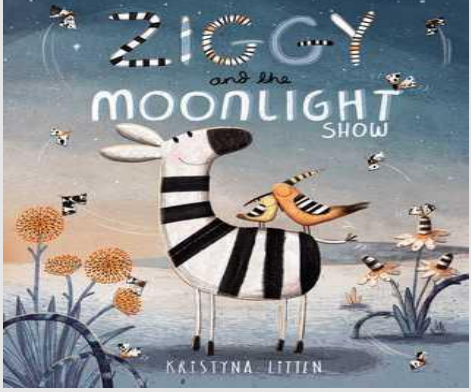

Notes from Ms. Sara:

"Mommy, I want to listen to Led Zeppelin and watch Thor." "Um Gracie that song and movie are not exactly for nighttime. Why don't we listen to 'Morning Mood' or other selections from Peer Gynt Suite by Edvard Grieg. And watch the sleeping fishes." "No mommy, no, no, no." "Gracie, let's do our breathing to get ready for bed. One, two, three, four, five." While Gracie works on her deep breaths, we are going to create beautiful artwork to hang on her bedroom wall (she is surprisingly partial to sparkles and glitter), determine how to design and construct a bed for bunnies (and perhaps even humans 😊) that is not only comfortable but ergonomically sound, utilize tools to observe and record the waxing and waning of the stars and movements of the planets and the moon, and demonstrate how to engage in aerobic exercise in addition to yoga before bedtime. We may also even make her some cinnamon toast and hot chocolate for a special treat- if she is calm! STAY TUNED FOR OUR REPORT!!!
