annual report

There is no question that 2023 was a challenging year for our worldwide Jewish community. After the October 7th terrorist attacks on Israel, our community came together to grieve and show our support for our Jewish family abroad.

During the last three months of 2023, Jewish Dayton worked tirelessly to educate our general community on the rise in antisemitism through JCRC programs, offered unwavering support to our Partnership2Gether region in the Western Galilee, raised much needed funds for Israel through an emergency campaign, provided opportunities to celebrate our rich history through JCC cultural events, and acted as a means of resource and comfort through JFS. During this time, we also planned and carried out our regular events and programs. You can read about these programs, and more, on the following pages.

I am so proud to be a part of a community that shows continued resilience and strength in the face of tragedy. Thank you for joining us as we work toward our mission of ***caring*** for those in need, ***strengthening*** Jewish life, and ***creating connections*** among Jews – acting locally, in Israel, and around the world.
